

Dear Mr. Sambonn Lek

Greeting from Sister (Sokhom Choeun), Cambodia!

I was very proud of getting better and even better education and livelihood, if compare with 3 years in the past, since I had received the sponsorship from Mr. Gary Bremer, my sponsor through you.

I have improving the knowledge gradually during the study in the bachelor degree in the field of finance, which resulting of getting job with **SITC as Accountant** and moved to **Legal Aid of Cambodia** is the local organization that provides service legal to the poor people. I work there *as Finance Assistant* and will is consideration of promoting to be Finance Officer, but during this period of time the management is considering of capacity and ability in communication, while it still limited in communication skill especially English language knowledge. On the other hand, I also wish to continue to study the master degree of finance or bachelor of law to get a higher education, but not be able to do so because of the family economic situation still limited and the lack of English language knowledge, while the university require the student to pass the exam of English language as priority before enrolling.

Because of your sponsorship that's why today I graduated in bachelor degree and get a good job in financial field. This support was very helpful and extremely important to me. I would insist you to support me to continues to get higher education and knowledge, so it will be useful for improving and developing the Cambodian society and as well as part of the world society.

I would convey my sincerely thanks to you, your colleagues and sponsors. I would very appreciate if you and the sponsor could continue to support me. I really want to continue to upgrade the knowledge to another degree. .

I would like to say thank you very much to brother and my sponsor supports for the kindness help and support. And hopefully you will consider supporting me for continuing upgrade the knowledge and education to be higher.

Wishing brother all the best.
